

I understand you're looking for an image of the table, specifically one that clearly displays the Chinese characters.

Since I am an AI and cannot directly generate or upload an image file (like a JPEG or PNG), I cannot fulfill this request directly.

However, I can provide the table again using a **simple, easily copy-and-pastable plain-text format** with the characters bolded, which you can then copy into a program like Word, Google Docs, or a simple image editor (like Paint or Snipping Tool) to create your own high-quality image.

### Table in Plain Text for Easy Conversion

| Chinese Character | Pinyin     | English Translation     | Usage                                | Example Sentence       |
